

CRANKY™ PORTABLE WINCH SYSTEM

Lift Heavy Loads Safely and Easily
Smarter Lifting for Safer Sites

The Cranky Portable Winch System is a lightweight, collapsible lifting solution designed for single-technician operation. Perfect for HVAC techs, facility managers, and contractors who need a safer alternative to lifting gear by rope or renting cranes.

- Lifts up to **300 lbs** with a **4.4:1 crank ratio**
- OSHA-compliant with built-in **hand brake** and **back pulley**
- Weighs only **29 lbs** and collapses for transport
- **360° turning radius** and **32" boom extension**
- Durable, weather-resistant, and **made in Brighton, Michigan**

One Cranky. Many jobs. Use it across sites to lift compressors to the roof, into your van, or anywhere heavy gear needs to go—safely, with just one tech.

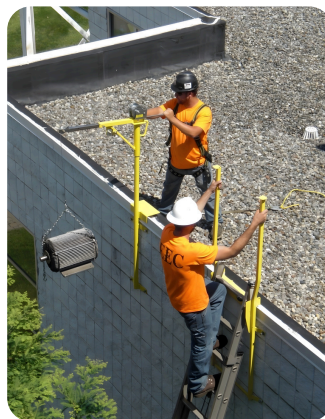

KEY BENEFITS:

- OSHA-compliant lifting system
- Designed for single-user operation
- Reduces injury risk and jobsite fatigue
- Cuts down on labor and equipment costs
- Built and independently tested in the USA
- Smarter alternative to crane rental—lower cost, less hassle, less manpower.

APPLICATIONS:

Rooftop HVAC service

Facility maintenance

Heavy part replacement (motors, compressors, etc.)

Safe lifting from trucks, vans, or ground level
